

PLC Home Learning Tasks

Let's build up our working memory!

This first game is a good way to build up your auditory memory (remembering things that you hear).

"I went to the zoo and I saw..."

Take it in turns to repeat each animal and add one more.

I'll start you off. "I went to the zoo and I saw a stripy tiger."

Variations

Change your setting

"I went to the..."

Museum
Park
Seaside

Add or remove
description

Create your list in
alphabetical order

See if you can beat your score each day.

Good luck!

Your next challenge is to build up your visual memory (remembering things that you see).

Look at this picture for 1 minute. Try to remember as many details as possible.

Once your time is up, look away from the picture and see if you can answer these questions.

How many clouds are in the sky?

What colour is the starfish?

What does the girl kneeling down have in her hand?

Is the sun shining?

You can play this game with any other pictures you have in your house. Ask a grown up to think of some questions for you once you have studied your picture for 1 minute.
