

Tim made a pictogram to show how many rainy days his town had during the first half of the year.

Rainy Days

1. Which month had the most rainy days?
2. Which month had the least number of rainy days?
3. How many rainy days were there in April?
4. Which month had exactly 15 rainy days?
5. Which months had more than 10 rainy days?
6. How many rainy days were there during the first three months?
7. What is the difference between the number of rainy days in January and the number of rainy days in February?
8. How many rainy days were there altogether?
