

As a school, we have derived a variety of concepts and values, which we believe our pupils need an awareness of throughout their education at SMA.

**Our teaching and learning process works by selecting the subject matter and then identifying the key concepts and values, which support the learning process and development of the curriculum for our children
- so they know they can be courageous advocates and take their learning beyond the classroom.**

Below is a table of the Concepts & Values selected for our curriculum.

St Margaret's Anfield
Concepts and Values Map.

Acceptance	Accountability	Advocacy
